TV and SAT Memory Plans UPDATE

</div>

WARNINGS:

- Before you upgrade the TV and SAT Memeory Plans of your instrument, we recommend that you **close all open applications on the PC**: email, internet, management programs, etc;
- Also, verify that the meter battery is charged and that the instrument is plugged in and they do not turn off or unplug the instrument during the update;
- If the operation of your instrument is correct, it is not necessary to update the SW, but you can only update the **"TV and SAT Plans memory"**. We remind you that the plans for TV and SAT are **supported free for 3 years**. Beyond 3 years, SAT & TV Plan can be created by the costumer, directly via the instrument's keyboard or via the PC with the interface program **ROVER-S.M.A.R.T PRO** manuals memory (MANUMEMORY) to up-date new satellite transponder missing or changed. On the website **"www.lyngsat.com"** are available updated lists of all transponders and satellites in the world. Refer to the user manuals instruction of your instrument, or visit our **"F.A.Q."** for more details.

NB: Although the graph of progress of the PC appears locked up, never interrupt the update process, the update is still progressing regularly.

PROCEDURE:

1. Connect the instrument to the mains and switch-on it;
2. Wait until the ignition phase (Start-Up) tool is completed;
3. Connect the **USB** cable, **before** the instrument and **then** the **PC**;
4. Start the interface **ROVER-S.M.A.R.T. PRO** on your PC;
5. In the program window ROVER-S.M.A.R.T. PRO click **"Instrument"** followed by **"Connect Instrument"**;
6. Click **"Tools"**, then **"Mem"** and then **"Open Mem"**;
7. In the **Open** window, select the **"TV and SAT Memory Plan (.mem)"** already downloaded from the "Update SW";
8. Click **"Open"** and confirm the selection;
9. 9. Click **"Tools"**, then **"Mem"** and then **"Write Mem to Instruments"**;
10. Will appear the following message: **WARNING: This operation will delete all the prevoius plans stored in the meter**;
11. Click **"OK"** and confirm to start the update;
12. In a few minutes, the program ROVER-S.M.A.R.T. PRO will load the new TV and SAT Memory Plans in your meter;
13. After loading the following message appears: **Plan Memory download succesfully!**

CAUTION:

In the event that the update has been interrupted or fails, please check the USB cable connections and repeat the update again from the beginning. If the above procedure continues to fail, contact your ROVER dealer or write to: **wecare@roverinstruments.com**
